MALONEY'S

Nursery Book

For Farm, Village and Suburban Homes

MALONEY BROS. NURSERY CO.
DANSVILLE N.Y.

WHEN we say this is a nursery book for farm, village and suburban homes, we mean that no matter what you need in the line of nursery stock—whether it is enough fruit to plant a large commercial orchard, or rose bushes and some shrubs for your lawn—we can supply you promptly and with exactly the varieties you order.

That sounds easy, but if you will count the number of varieties listed in the catalog, you will see that we have undertaken a rather large job—a job that requires a planting of over four million fruit trees, shrubs, roses, vines, etc., in our 400 acre nurseries here in Dansville. Yes, and we have to be able to call each one of these 4,000,000 trees and plants by their first names, too—for as you will see in the catalog we guarantee every one of our trees to be true to name.

To tell the truth, running a nursery is rather a scientific business—a speciality business—an exact, careful business, and that is why we stress the point that the Maloney Nursery has been in business over 40 years and that not only the Maloney Brothers themselves, but most of the men they employ have grown up from boyhood in the nursery business.

That means that not only are we all nursery specialists, but that we have all been trained in the Maloney idea, and that is, that no tree or plant is good enough to ship unless it fully measures up to the Maloney Standards of quality—and every member of our organization knows that we guarantee satisfaction or refund the customer's money.

Yes, we guarantee satisfaction not only with the quality and trueness of name of Maloney stock, but we also guarantee satisfaction with Maloney service. We guarantee to so pack our stock that it will reach its destination in good growing condition, carrying with it all the wonderful Maloney Root System.

Hundreds of men and women come direct to our Nurseries to place their orders and we are delighted to have them; in fact, for years we have urged all our friends and customers to be our guests in Dansville, and we want you to accept this as a personal invitation to do likewise. But whether you come in person or send in your order by mail, remember you get exactly the same stock—for Maloneys ship only one kind of stock—*The Best*.

Office of the Secretary, Amherst, Mass.
October 13, 1925

To Fruit Growers:

About 60,000 one and two-year old apple trees were certified during the summer of 1925 by this Association for Maloney Bros. Nurseries at Dansville, N. Y. This certification was in charge of Dr. J. K. Shaw, of the Massachusetts Experiment Station, our agent for certification.

This does not mean that other trees sold by Maloney Bros. Nurseries are misnamed, nor that the trees are guaranteed in any way by this Association. It does mean that each certified tree has been carefully examined and pronounced true to name by a disinterested expert and that the danger of accidental mixing of varieties has been practically eliminated.

A lead seal is attached to each certified tree, bearing the name of the variety and our stamp of certification as being true to name.

Trees of the following varieties were certified in 1925 for Maloney Bros.

Apple:

Baldwin	McIntosh	Stayman
Black Gilliflower	Maiden Blush	Tolman Sweet
Cortland	Northern Spy	Tompkins King
Delicious	M. W. Greening	Transcendent
Early Harvest	Oldenburg	Twenty Ounce
Fall Pippin	Rambo	Wegener
Fameuse	Red Astrachan	Wealthy
Gravenstein	R. I. Greening	Williams
Grimes Golden	Rome Beauty	Winesap
Hubbardston	Roxbury Russet	Winter Parana
Hyslop	Smokehouse	Wolf River
Jonathan	Stark	York Imperial
	Yellow Transparent	

The Massachusetts Fruit Growers Association, Inc.
S. L. Davenport, North Crafton, President.
W. R. Cole, Amherst, Secretary

Above is a photograph showing certified Apple Tree bearing the seal.

In accordance with our established policy, we have had 60,000 apple trees certified as being true to name by Dr. J. K. Shaw of the Massachusetts Agricultural College—Certificate Agent for the Massachusetts Fruit Growers Association, Inc.

The facsimile letter reproduced on this page tells the certification story and lists the varieties certified. All Maloney fruit trees are budded from bearing trees and are covered by the same rigid Maloney guarantee as are the certified trees.

Certification is an extra precaution taken for the benefit of customers who prefer it and who wish to pay a few cents additional per tree to cover the cost of the work—see prices listed on page 6.

Surroundings That Beautify the Home

EVERGREEN COLLECTION

—\$25.00.

2 American Arbor Vitae	1 Norway Spruce
2 Colorado Blue Spruce	3 Juniper Prostrata
1 White Pine	1 White Spruce

A FRAME FOR YOUR HOME

An oil painting tacked on its board is not nearly as beautiful as it is after it is framed. The frame brings out certain parts and subdues others—it completes the picture and only completed things are beautiful.

A house without trees, shrubs, vines and flowers about it is an unframed picture. The shades of the maples, and the dark cover under the evergreens, the bright touches here and there made by flowering shrubs and vines bring out the attractive lines of the home and make the frame that completes the picture.

The frame on the oil painting may or may not improve with age—but the wonderful part of an ornamented planting is that it grows more beautiful as the years go by and that when once done it is done for a life time and more.

Another splendid thing about an ornamental planting is that anybody by using thought and care in selecting the proper shrubs and by planting them in clumps and in curved lines can have the fun of building his own frame.

For those who desire to have professional advice on the arrangement of their planting, a landscape service is provided by this company and is fully explained on page 41.

On pages 30-48 of this catalog you will find valuable information and description of the ornamental stock we offer. You will find that a comparatively small investment in this stock will not only increase the beauty of your home, but immediately increase the actual cash value many times more than the stock costs.

MALONEY BROTHERS NURSERY CO., Inc., Dansville, N. Y.

Good Root System is the Foundation of Successful Planting

ON the root system depends entirely the future growth and development of the tree. In fact, a tree is of little or no value unless it is equipped with sufficient roots. It is regrettable indeed that many nurserymen pay so little attention to this most important feature of the nursery business.

Trees with abundance of roots start quicker, make a faster and more vigorous growth and require about one-half the care of those poorly rooted. Good roots aid materially in bringing the trees into fruiting early for they are essential in quick development. We have made a scientific study of the character of the tree and use only the very best grown branched rooted seedlings on which to propagate and especially prepare our upland for the reception of the stock.

The roots of the seedlings are carefully pruned before they are replanted—this produces a heavy, vigorous root growth. The extra care given the seedlings from the first, results in the well branched heavy root systems which are formed the next year in the nursery row.

When these roots are produced, they must not be cut off and left in the ground, therefore, digging is of vital importance. We own one of the three steam diggers which are now in operation in the United States. This system of digging is acknowledged by fruit growers as being, beyond any question of doubt, the most satisfactory way for taking up trees and insures patrons of being supplied with stock which is equipped with a beautiful fibrous root system. It might be interesting to know that the educational department of New York State sent for a photograph of our steam digger to use in a new geography to illustrate modern methods in the Nursery Business.

AN ILLUSTRATION OF OUR STEAM DUG TREES

DIGGING TREES BY STEAM POWER

Planting Instructions

This is Important—Read it carefully

Care of Stock on Arrival—All stock should be planted immediately on arrival, but if not convenient to do so, open bundle and heel roots in the ground, covering them thoroughly.

Plant When the Soil is Reasonably Dry—In such condition as you would when planting corn or potatoes.

Pruning—Roots are sometimes bruised in digging. For best results it is imperative that you trim about one-fifth of the root, making a nice smooth cut, thus removing all bruised ends. Cut back one-half of the limb growth.

Planting—Dig the holes deep enough so the trees will be set one inch deeper than they were in the nursery row, and wide enough to admit the roots of the trees to spread out in their natural position. Having dug the hole as directed, let one person hold the tree upright and the other shovel in the earth; fill the hole about one-fourth with the richest dirt, pack it solidly, then put in one pail of water, now fill the hole two-thirds with dirt, pack firmly, then fill up the balance of the hole and pack well.

Drainage—Your time and money are wasted if you plant on undrained soil. All hollows should be avoided when selecting positions for planting.

Watering Newly-Planted Nursery Stock—A good soaking once or twice a week if the ground is dry should be resorted to. A mulch of long manure, grass clippings or straw helps to retain this moisture and should be provided if possible.

Labels—Labels should be removed. The wires will cut and damage the limbs.

Cultivation—Ten days after the tree has been planted work around it to keep the soil loose; do this about every two weeks during May, June, July and August.

These planting directions apply to all kinds of nursery stock. When planting evergreens, however, prune the roots only.

Trimming Shrubbery—Newly planted shrubbery should be cut back severely; from one-third to one-half of the top should be removed. If the planting is done in the Fall it is usually best to defer this trimming until early the following Spring.

Shrubs that bloom before the middle of June should be trimmed just after the blooming period to ensure a profusion of bloom the following year. Shrubs like Altheas and Hydrangeas which bloom later should be pruned in the Winter. Fading flowers and forming seed vessels should, where practicable, be removed, that the strength which otherwise would go into ripening seeds may be diverted to forming flower buds for the ensuing year. In trimming shrubs avoid stiff, unnatural results and cut so the plant will bear long, graceful branches.

Winter Protection—Most of us have some varieties which are a little delicate or which have so recently been transplanted that some Winter protection is necessary. A mulch of manure about one inch deep, spread about such plants after the ground becomes frozen, prevents the alternate freezing and thawing which is disastrous. Leaves are valuable for mulching, especially for the perennial beds. They may be confined by branches or wire netting.

If you use barnyard fertilizer for mulching, allow it to remain until about the 10th of April, then work it into the ground.

Apple Trees should be planted on elevated ground rather than in a hollow or low ground, and they require fertile soil, such as is needed for corn and wheat

Summer Varieties

EARLY HARVEST—Medium to large size; pale yellow; tender, with a mild, fine flavor. Tree an erect grower and a good bearer; excellent for orchard and garden; one of the first to ripen. Middle to end of August.

GOLDEN SWEET—Large, pale yellow, tree a good grower and very productive. August to September.

RED ASTRACHAN—Tree hardy and regular bearer, a very vigorous grower; fruit large, roundish, nearly covered with deep crimson overspread with a thick bloom; juicy, rich and beautiful. This fruit commands the best price of the summer varieties. July and August.

SWEET BOUGH—Large, pale yellow; sweet, tender and juicy. Tree a compact grower and abundant bearer. August.

WILLIAMS EARLY RED — Medium sized; dark red, sometimes yellow splashed; flesh is crisp, tender, juicy and sub-acid. Ranks above all but one or two of this class. Fine in Delaware and the South. Use it—it is a money maker where you can ship to markets in hampers without delay. It is ready for market just about the time people are growing hungry for new apples, and it brings top price. August.

YELLOW TRANSPARENT—Medium size, roundish, oblate, slightly conical; skin pale yellow when fully matured; flesh tender, juicy, sprightly, sub-acid; good. August.

DELICIOUS

Autumn Varieties

ALEXANDER — Of Russian origin. Large, deep red or crimson; flesh yellowish white, crisp, tender, with pleasant flavor. Tree very hardy. October.

AUTUMN STRAWBERRY — Medium, streaked, tender, juicy, fine, vigorous and productive. September to October.

DUCHESS

DUCHESS OF OLDENBURG — Summer. Medium size; red striped; flesh white, juicy and excellent flavor. Trees are natural dwarf growers, make fine fillers; require small root and branch space. Crops nearly always large. One of the important varieties for all sections north of Mason and Dixon line. Thrives and yields well of high-grade fruit at all elevations in Pennsylvania, New York, Ohio and other northern states. Trees among the hardiest and one of the few that will stand the climate of Iowa, Minnesota, Montana, and other cold locations. You can depend on Duehess to yield apples you can sell for good priees. August and September.

FALL PIPPIN — Very large, yellow, tender, juicy, and rich. Fine in all localities; tree vigorous. September and October.

GRAVENSTEIN — An attractive and excellent quality apple. Fruit large and uniform in size, skin thin, tender, greenish yellow overlaid with dark red. September to November.

MAIDEN'S BLUSH — Large, flat; pale yellow with red cheek; beautiful; tender and pleasant. September and October.

POUND SWEET — A very large, round, yellow russet apple, very sweet and rich. Tree a vigorous, rapid, upright grower; valuable. October to November.

PUMPKIN SWEET — Very large; yellowish russet, sweet and rich. Valuable. October and November.

RAMBOO — Medium, red and yellow. Mild flavor. Excellent old variety. October to December.

Winter Varieties

AMERICAN BLUSH — (High Quality Red Winter Apple.) Here is an apple that is not surpassed the world over for large size, great beauty of color, or for excellent quality. Fruit, large, roundish, color bright red on yellow skin; flesh yellow with a fine, rich, aromatic flavor, sub-acid. The tree is a vigorous grower, and is exceedingly productive, bearing an abundant crop of fruit every year. November to January.

BOIKEN — Annual bearer, vigorous grower. Fair size, hardy; bears young, very attractive and regarded as one of the most valuable apples of recent introductions. November to March.

BELLEFLOWER — Adapted to the northern and middle states; highly esteemed for its excellent dessert qualities. October to February.

BALDWIN — This is the leading commercial variety in the American markets. It is to apples what Elberta is to peaches, and Montmorency is to cherries. One of the best storage apples for export trade. Thousands of barrels of this fruit are exported to England annually. Baldwin is planted extensively and succeeds wonderfully well in all states east of the Mississippi. No variety yields larger crops, bears shipment better or is more attractive in colors, size and shape. It is highly esteemed for an eating and cooking apple. Fruit large, bright red, crisp, juicy and rich. Trees vigorous, upright and productive. For a commercial orchard, it can be relied upon. If ever in doubt what kind of apples to plant, select Baldwin. It should be in every orchard. December to March.

Cortland (New Variety Developed by New York State Experimental Station.) A fine apple resulting from the cross pollination of McIntosh and Ben Davis. Inheriting only the good qualities of each, the new apple has found additional good qualities of its own which are rapidly making it a strong competitor of the Baldwin in popularity. The Cortland is a beautiful red apple, larger than the McIntosh, of better quality and matures a month later. Keeps late in Winter and can be handled and shipped like the hardiest of other market varieties. Has the calibre of a real leader.

Budded on Whole Branched Root French Seedlings.
Largest Size, 1 yr. 4 to 5 feet, Sturdy Buds, XXX \$1.25 Each, \$10.00 per 10, \$65.00 per 100.
2½ to 4 feet, XX \$1.15 Each, \$9.00 per 10, \$55.00 per 100.

Ben Davis — Fruit is medium to large. Bright red or red striped with clear yellow. Season — January to June. It succeeds wherever apples are grown.

CORTLAND

DELICIOUS — No new variety has ever so quickly gained popularity in so many different apple sections of our country. Fruit large, nearly covered with brilliant dark red, flesh fine grained, crisp and melting, juicy with a delightful aroma, of very highest quality. A splendid keeper and shipper. Tree one of the hardiest. November to April.

McINTOSH

FAMEUSE — Snow Apple—Medium size; deep crimson; flesh snowy white, melting and delicious, one of the finest dessert fruits. October to December.

GANO—An improved Ben Davis, adding to the good qualities of that variety a much handsomer fruit of deep, dark red, that brings a ready sale in market, December to March.

GILLIFLOWER—(Black.) An old dessert apple; tree a good vigorous grower and a reliable cropper. October to February.

GRIMES' GOLDEN—Medium to large size; skin golden yellow, sprinkled with gray dots; flesh crisp, tender, juicy, sprightly, very good to best. Tree is very hardy and productive, and one of the best fillers, as it comes into bearing very early. Grimes' Golden is one of our few best sorts. December to April.

HUBBARDSTON NONESUCH—Large, striped yellow and red; flesh yellow, juicy and tender, with an agreeable flavor of acidity and sweetness; of the finest quality and very valuable; strong grower; bears well every year; comes into bearing early. You will find it a splendid orchard tree for New York and Pennsylvania. November to March.

JACOB'S SWEET—Large, yellow with red cheek. Excellent quality and good keeper. December to January.

JONATHAN—A beautiful red apple, highly flavored and of excellent quality, being tender, juicy, spicy, and rich—a splendid family sort and highly profitable for market. Tree long-lived, productive, and an early bearer. Will keep well without special care and also stand much handling. November to January.

KING—(King of Tompkins Co.) When you see in the market apples of extraordinary size, beautiful red in color, specimens that attract the attention of everybody who passes by, you may know that these are the King apple. The market is never fully supplied with this variety, since its size and beauty make it in great demand. Tree a vigorous grower, good bearer and hardy. November to January.

MAMMOTH BLACK TWIG—Resembles a large Winesap. Dark red. A very profitable variety to plant for market. It is productive and a long keeper. If a late winter apple is desired you will make no mistake in adding it to your list. December to April.

MCINTOSH RED — An exceedingly valuable, hardy, attractive apple; good size; nearly covered with red. Flesh white, fine, very tender, juicy and refreshing. Tree hardy, vigorous, a good annual bearer—comes into fruiting early, yielding large crops. Mr. Maloney recommends this variety to our patrons as one of the best used as a filler. The hardness of both tree and fruit and its great early bearing qualities, coupled with its elegant color and splendid flavor, make it a most valuable

apple. Do not overlook McIntosh when selecting varieties for commercial orchard planting; has no superior as an early winter apple. October to January.

NEWTOWN PIPPIN—Medium to large; yellow, delicious flavor, a long keeper. Known throughout Virginia as Albemarle Pippin. November to May.

NORTHWESTERN GREENING—A round, large, attractive, greenish yellow apple; flesh fine grained, juicy, firm, good quality. October to April.

NORTHERN SPY — A hardy, large, red, winter apple. Flesh juicy, rich, crisp, tender, aromatic, of good flavor. Tree very healthy, strong grower, rugged. Blossoms very late, escaping frosts. Its large size, handsome appearance and super-fine quality give it first rank for fancy trade, and when well grown and properly packed, it sells for higher prices than any other winter apple. It retains its crispness and high flavor well to the end of its season. December to March.

RHODE ISLAND GREENING—This apple has a recognized standing, both in domestic and foreign markets and sells readily for good prices. It is regarded as the very best cooking apple grown and also excellent for dessert use. Size large. Flesh yellowish, firm, fine grained, crisp, tender, juicy, slightly sub-acid, very good. Skin grass-green to yellow, sometimes with brownish-red blush. Tree large, strong, vigorous, wide spreading. Ripens in December, keeps until April.

ROME BEAUTY—Large, round; mottled and striped in different shades of red; flavor and quality way above

BALDWIN

the average; appearance and size are its valuable points; always sells and always brings good prices. With an established reputation due to real merit. Good grower; blooms late; bears heavily every year; is adapted to a wide range of soils, elevations and conditions. Reliability, due to being frost-proof, strong-growing and sure bearing, make it a favorite with the grower.

ROXBURY RUSSET—Medium to large. Surface rough, greenish covered with russet. Tree free grower, spreading; a great bearer. Keeps until June. Its great popularity is its productiveness and long-keeping. December to May.

SMOKEHOUSE—Fruit medium to large, uniform size and shape. Color yellow or greenish mottled with rather dark red, sometimes deepening to a solid bright red. October to March.

SPITZENBURG. (Esopus.) Unequalled for its high rich flavor, color deep red; flesh yellow, crisp, rich and excellent. December to March.

STARK—Large, striped, mild, sub-acid, good. Valuable as a keeper. January to May.

STAYMAN'S WINESAP—Medium to large, attractive; green and yellow, almost hidden by dark red stripes; flesh yellow, not in the least mealy; plenty of juice; quality of the finest. Tree a quick and large grower, bears young, often producing a barrel to a tree when five years old. Bears every year, crops uniformly heavy. You cannot find a better sort, either for bearing habit, size of fruit, looks or quality. Do not hesitate to plant Stayman's Winesap. December to April.

SUTTON BEAUTY — Tree vigorous, upright, spreading, fruit uniform in size and shape, fine grained, crisp, tender, very good. Color bright red, striped with carmine. November to March.

TOLMAN SWEET — Medium size; light yellow; flesh white, firm, rich, and very sweet. Excellent for winter baking. This is the old favorite, highly prized for baking. Very productive, an early bearer, long keeper. December to April.

TWENTY OUNCE—Very large, yellow striped, red, fine quality apple; good keeper. Tree vigorous grower, productive. October to January,

WAGENER. (Red Winter Apple.) Wagener is a beautiful winter apple, flesh crisp, tender and aromatic. We know of no apple possessing greater beauty or of finer quality than the Wagener. It succeeds well East and West. No orchardist's list of varieties can be complete without this beautiful and superior flavored apple. Of medium to large size; flesh firm, sub-acid and fine quality. December to May.

WEALTHY—This is one of the best red early winter apples. Owing to its early bearing qualities it is planted largely as a filler. Its extreme hardiness makes it a valuable variety for the eastern states and is considered to be one of the best all around early winter apples to grow. Fruit large, roundish; skin smooth, oily, covered with a dark red. Flesh white, tender, juicy, vinous, sub-acid; quality very good. This variety is particularly valuable for cold climates because the tree is very hardy. Wealthy is being planted largely for commercial purposes as a filler in many sections. October to January.

WINESAP—Large, roundish, oblong; deep red with a few streaks and a little yellow ground color appearing on the shady side; flesh yellow, firm, crisp, with a rich, high flavor; quality very good. December to May.

WINTER BANANA—Fruit large, perfect in form; golden yellow, and beautifully shaded and marbled with bright, crimson red; flesh lemon-yellow, fine grained, sub-acid, rich, aromatic flavor, and of the highest quality. A good keeper. Tree remarkably strong grower, and on account of its great hardiness, will thrive in any climate. Its early bearing is something simply wonderful, generally producing a fine crop the second year. A valuable market variety. Very popular especially in New York and Pennsylvania. November to January.

WOLF RIVER — Fruit is very large, some specimens weighing 27 ounces; flattened, conical, highly colored. An excellent cooking apple. September to December.

YORK IMPERIAL—A fine, hardy, large, red, winter apple; succeeds over a wide range of country. It comes into bearing at four years from planting, bears regularly and heavily. The fruit is of medium size, skin yellow and almost wholly covered with two shades of red, the darker one disposed in distinct stripes. Splendid variety for Pennsylvania. November to February.

Best Hardy Crab Apples

HYSLOP—Fruit large, deep crimson; produced in clusters; flesh yellow, sub-acid; and popular on account of its large size, beauty and hardiness. October.

TRANSCENDENT—This is probably one of the best of all crab apples, is popular over the entire country. It is perfectly hardy everywhere and an immense bearer, yielding large crops every year. It is also a rapid grower and often bears fruit three years after planting. The fruit of this crab is held in great esteem by housewives for making jelly. Fruit bright yellow, striped with red. September to October.

10 per cent. Discount on all Cash Orders mailed before April 1st

The Planting of Pears is on the increase, so much so that it has been difficult for us to supply the demand.

This is especially true of Bartlett, Clapp's, Kieffer and Seckel which are the leaders and in the order named.

Soil. Pears will succeed in a clay soil, although any good heavy soil will do, but avoid planting on sandy loam.

BARTLETT—Large, coloring when fully ripe to waxy yellow with red blush; juicy, melting, highly flavored, a most delicious fruit; tree bears early and abundantly. We have sold many large orchards of this variety. The fruit ripens just at a time when there is but little competition; in fact, there is no pear ripening at the same time that is in the Bartlett class. It might surprise you to know—nevertheless it is a fact—that there are more of this variety planted than all other kinds of pears combined. That speaks for itself, does it not? You will never make a mistake when planting Bartlett. September.

BEURRE D'ANJOU—This is one of the best known, most popular and profitable late pears. The tree is a vigorous grower, hardy and prolific. The pears are of large size, green in color, but often yellowing when thoroughly ripe. They are very juicy and luscious and of the best quality. For late fall and very early winter use we have no better variety. Many claim that this is the greatest of late autumn pears. It keeps until January with special care. It is beautiful in shape and color. Season October and November.

BEURRE CLAIRGEAU—Large; light yellow, shaded with crimson and russet. Flesh yellowish, melting. Early abundant bearer. November to January.

BEURRE BOSC—A large and beautiful russet pear, very distinct with a long neck; melting or nearly so, highly flavored and delicious, bears well, ripens in October.

CLAPP'S FAVORITE—A superb large, long yellow pear, richly flushed, with russet-red next the sun. The flesh is fine grained, juicy, melting and buttery. A cross between Bartlett and Flemish Beauty; earlier than Bartlett and resembling Flemish Beauty in growth. It is as hardy as the Flemish Beauty; a fine grower and extremely productive. Early August.

DUCHESS D'ANGOULEME—A most dependable cropper often fruiting the first season after planting. Fruit large, frequently weighing a pound. A dull greenish yellow, spotted russet, flesh white, rich and good quality. An all-round profitable market pear. October and November.

FLEMISH BEAUTY—Considered one of the hardiest and best for the northwest in which location it bears great crops of perfect fruit. September to October.

SECKEL

HOWELL—Large, yellow, with red cheek; early bearer and productive. September and October.

KIEFFER—Large, rich golden yellow, sometimes tinted red on the sun exposed side; fair quality. It has become a profitable market variety on account of its good shipping and keeping qualities. To properly ripen should remain on the trees until leaves begin to fall, then gather carefully and allow to ripen in a cool dark cellar, or other place of even temperature. Tree a most vigorous grower, an early bearer, one of the most resistant to blight, very prolific, and widely planted throughout the country.

LAWRENCE—Medium to large, golden yellow, with melting, aromatic flesh. Unsurpassed as an early winter pear. The tree is hardy, healthy and productive, bearing large crops annually. November and December.

SHELDON—A large, round, russet and red pear of very fine quality, melting, rich and delicious. Tree vigorous, erect and handsome, bears well and should be more largely planted. October.

SECKEL—A beautiful and delicious little pear that is the standard of excellence in its class. One of the richest and highest flavored pears known, always in demand for desserts and luncheons and better known than any pear of its class. The tree makes a somewhat slow but stout and erect growth. Owing to its extreme hardiness it can be planted in cold climates with the assurance of best results. September and October.

VERMONT BEAUTY — Yellow, bright carmine cheek. Tree is very hardy and thrifty. October and November.

WILDER—One of the very earliest pears, of excellent quality. Of medium to large size, irregular, bell shaped; pale yellow with shadings of russet-red. Early August.

WINTER NELIS—Winter Nelis is held in very high esteem by experienced pear orchardists in general. It is without exception the finest winter variety yet produced. Tree is very hardy and a very heavy cropper. Fruit is of medium size and roundish in appearance, yellow in color, covered with russet. The flesh is yellow, sweet and fine grained. Unexcelled for quality when fully ripe. December.

Dwarf Fruit Trees

Dwarf fruit trees bear larger, better fruit; bear several years earlier and produce more returns for a given space than standard trees. There are even more important points. The low, broad heads are within reach so that apples or pears can be easily picked. You can plant dwarf trees in your garden and still grow strawberries and most vegetables. With dwarfs some varieties will bear the first year, all will the second, and bear a full crop the fourth year.

Dwarf Apple trees are budded on Paradise or Douein stock, and Dwarf Pear trees are budded on Quince stock. They will succeed in many places where standard trees fail. In a word, they are the kind of dwarf trees that will put their strength into fruit instead of wood.

How to Plant—For your information cherry roots must not be given much sun or wind exposure—either is just as harmful as a heavy frost. You would not think of leaving them out over night uncovered. It is just exactly as necessary to protect them from sun and wind.

Requires Least Attention of All Fruits, because it has been demonstrated beyond question of doubt that scale cannot live on cherry.

Where to Plant—On any kind of land, other than wet. They will thrive beautifully on a sandy or gravelly soil.

Sweet Cherries

BLACK TARTARIAN—This fine old variety produces immense crops of very large, purplish black fruits of mild, sweet, jelly-like consistency. The tree makes a beautiful, erect growth. Late June and early July.

BING—This valuable new black cherry succeeds everywhere. Tree very thrifty and upright grower, very hardy and productive, flesh very solid, flavor of the highest quality, a fine shipping and market variety. It is one of the most delicious sweet cherries. This valuable cherry should be followed by Lambert, which is later in ripening. Both are grand cherries. July.

GOVERNOR WOOD—One of the best cherries; very large, light yellow, marbled with red; juicy, rich, and delicious; tree healthy and a great bearer; hangs well on the trees; vigorous. Last of June.

LAMBERT—A fine sweet variety originating in Oregon, and one of the largest of all cherries, dark purple red, turning almost jet black when ripe. Flesh firm, rich, juicy, tree rugged, strong grower and an enormous bearer. The growing of the sweet cherry is a great industry only fairly well begun. There is an enormous market

for the fresh fruit and when canned or preserved the markets of the world are open to the producer. Late July.

NAPOLEON—Tree medium size, erect with roundish head, fruit borne generally in twos, very large, oblong cordate, light lemon yellow with red cheeks in the sun. Flesh very hard, brittle, colorless, reddish at the stone. Good, excellent bearer. Ripe about June 20th.

SCHMIDT'S BIGGARREAU—The fruit is of very large size, of a deep mahogany color. The flesh is dark, tender, very juicy with a fine, rich flavor. Fruit grows in clusters. It is an excellent shipper and brings good money on the market. July.

WINDSOR—A splendid, large, liver-colored cherry that hangs a long time and rots but little. The flesh is remarkably firm and good, the tree very hardy and fruitful. Exceedingly valuable for late market and home use. July.

YELLOW SPANISH—Large, pale yellow, with red cheeks; firm, juicy and excellent; one of the best light colored cherries; vigorous and productive. Last of June.

Sour Cherries

DYEHOUSE—A hardy and valuable cherry. The earliest cherry of fine quality. Often bears at two years old, and has the appearance of being covered with a purple cloth, such is the abundance of the fruit. Has the smallest pit of any cherry known. For tarts, pies, and especially for canning it has no superiors among cherries. Early June.

EARLY RICHMOND—This is one of the most valuable and popular cherries and is unsurpassed for cooking purposes. This hardy cherry fruits on young trees soon after planting. It is the good old variety that yields such marvelous crops in the gardens. The most hardy of all varieties, uninjured by the coldest winters. Tree slender in growth, with a roundish spreading head, exceedingly productive. Fruit is medium size, round and dark red. The flesh tender, juicy, and sub-acid. Ripens in June.

ENGLISH MORELLO—Without doubt one of the most valuable of this class. Easily grown, generally producing a heavy crop. Fruit dark red, quality good, with a rich, acid flavor; late. Tree very hardy, for extremely cold latitudes. August.

MAY DUKE—Large red; juicy and rich; an old, excellent variety; vigorous, productive. June.

MONTMORENCY—This is the best of all the sour varieties of cherries. There is a greater demand on the market for this cherry than for any other. The trees are the cleanest and best growers and are less subject to disease, less affected by wet weather, and are the best bearers of all sour varieties. No matter how unfavorable the season may be Montmorency can be depended upon for a full crop. The Montmorency is a good shipper, very attractive looking and always brings good prices. The canning factories are always wanting them by the hundreds of tons. The fruit is good sized, fine flavored and bright clear red. The flesh is of fine quality and sub-acid. Fruit ripens ten days after Early Richmond.

OSTHEIM—A hardy cherry from Russia. It has been tested in the severest winters of Minnesota, and has been found perfectly hardy. Fruit large. July.

WRAGG—Much like the English Morello. One of the hardest cherries. August.

Plums are hardy and grow vigorously in nearly all sections, succeeding on any soil that grows good corn or potatoes. Plum trees are planted about as far apart as peaches; that is, from 15 to 18 feet apart each way.

European Varieties

BRADSHAW—A very large and fine early plum, dark violet red, juicy and good. Very productive; valuable for market. The tree is very hardy and vigorous. Middle of August.

FELLEMBERG PRUNE—A fine prune, oval; purple; flesh

juicy and delicious; parts from the stone; fine for drying; tree very productive. Early September.

GERMAN PRUNE—Medium; oval; purple or blue; juicy, rich, fine. Tree vigorous and very productive. One of the best. Sells for higher prices in market on account of high quality. A leading favorite. There is no easier

INSIDE VIEW OF PACKING HOUSE

Experienced men together with our modern equipment makes it possible for us to pack your stock so as to have it arrive in excellent condition.

grown fruit that gives greater or more certain profit than the German Prune. Owing to its keeping qualities it is highly prized for shipping. September.

GRAND DUKE—One of the best late plums for market, as large as Bradshaw, of same color, entirely free from rot. Last of September.

IMPERIAL GAGE—Rather large, oval, greenish. Flesh juicy, rich and delicious. Parts from the stone. Tree a vigorous grower, very productive and one of the best of plums. Middle of August.

LOMBARD—It is a handsome reddish plum, the flesh yellow, juicy and pleasant. It is an excellent variety and can be relied on for a crop when other varieties fail. August.

MOORE'S ARCTIC—Fruit grown in clusters. Color dark blue or nearly black when fully ripe. September.

MALONEY PRUNE—Color dark blue. Flesh yellow and delicious. Tree is a splendid grower, extremely hardy. It comes into bearing at an early age. This is just the variety that the orchard man has been looking for. Season extending from September until freezing weather.

NIAGARA—Red, large size, makes an attractive appearance in market, and possesses good shipping qualities. It bears enormous crops of fruit. Tree is an upright

grower, vigorous and healthy. Middle of August.

REINE CLAUDE. (Bavay's Green Gage)—Roundish, oval, greenish, marked with red in the sun; a great favorite. September.

SHIPPER'S PRIDE—Large, nearly round; dark purple; quite juicy, sweet; splendid shipper; moderate grower; productive. September.

SHROPSHIRE DAMSON — Fruit oval; tree a good grower and enormously productive; fruit of medium size produced in thick clusters or groups, dark purple color, esteemed for preserving. October.

THANKSGIVING PRUNE — Very productive, good quality and long keeper. October.

YELLOW EGG—Golden yellow covered with thick bloom. Flesh golden yellow. Rather juicy. Tree large, very productive. September.

YORK STATE PRUNE—Large size, color dark blue, covered with purple. Delicious. One of the largest, best in quality, and most productive of all prunes. Tree is a vigorous grower and hardy. This variety is being planted extensively and is considered the best for commercial purposes. Last of August.

Japanese Varieties

ABUNDANCE—One of the best Japan Plums. The tree a rapid grower, healthy, comes into bearing remarkably young and yields abundantly. Fruit of medium size, amber, with markings of red; juicy, sweet, of good quality. August.

BURBANK—Is decidedly the best of Japan varieties, unsurpassed for beauty and productiveness, as well as a very hardy tree. One of the grand points about the Burbank is that it succeeds over a wide range of our country, and will stand the most severe winters. Fruit large, oval, with reddish purple skin; flesh yellow, juicy, and good. August.

RED JUNE—The great early market plum. Medium to large; deep vermillion red, with beautiful bloom; very showy; flesh light lemon-yellow, firm, slightly sub-acid, delightful. It is the best in quality of any of the early Japanese plums, free from rot. Ripens in early August.

WICKSON—This, largest of the Japan plums, is superb in every way. The color is bright cherry-red, covered with a light bloom; the pit is small for so large a fruit, the flesh is thick, sweet, tender and rather dry, indicating good keeping and shipping qualities. September.

QUINCES

ORANGE

Prices of All Varieties of Hardy Upland Grown Quince Trees

Largest Size	2 Year	Height 4 to 5 Feet	Caliper 5/8 and up	XXX	Each \$1.10	Ten \$10.50	Hundred \$80.00

\$8.00 per ten

10 per cent. Discount on all Cash Orders mailed before April 1st

CHAMPION—A large, late-ripening sort, that produces good and constant crops. One of the best for sections not subject to early frosts. Last of October.

ORANGE — Buds secured from Fred Grover's orchard, Pultneyville, N. Y. Every one is acquainted with the Orange Quince, a good old variety that never disappoints the planter; good for home use and for market.

Fruit large golden yellow of fine quality. It rarely fails to produce a crop. Ripens in October.

MEECH'S PROLIFIC—Fruit is large, orange yellow, of great beauty and delightful fragrance. Tree a vigorous grower and immensely productive. Ripens between the Orange and Champion. Last of October.

RUSSIAN APRICOTS

Beautiful and delicious fruit. In quality and appearance is between plum and peach, combining qualities of both. Ripening early, together with its delightful flavor, makes it one of the most valuable fruits. Tree hardy as the peach. Requires about the same cultivation as the peach or plum. It ships well and commands a good price in any market. For drying and canning, it has no superior. The Russian varieties are quite distinct from the other European sorts; much hardier, earlier bearers and productive.

ALEXANDER—Very hardy and immense bearer; fruit large; yellow flecked with red; very beautiful, sweet and delicious. July.

ALEXIS—Very hardy and abundant bearer; yellow with red cheek; large to very large; slightly acid, rich and luscious. July.

MOORPARK—One of the largest. Orange with red cheek; firm, juicy, with a rich flavor; very productive. August.

WE GUARANTEE OUR STOCK

To arrive at destination in a satisfactory condition. Should any arrive otherwise, we expect the consignee to notify us within five days after arrival and we will immediately duplicate the unsatisfactory items.

To be positively free from disease.

To be absolutely **TRUE TO NAME**.

This guarantee is backed by over 40 years' experience and a capital of \$150,000

The Firm Back of the Nursery Stock

There are few men in this country outside of the nursery business who can tell the variety of one tree from another as it comes from the nursery row. That means that it is probably impossible for you to tell on the arrival of your stock whether you have, or have not received the trees you ordered.

That's why it is absolutely vital for you to know the men or the reputation of the firm you are buying from.

So, we stress the point that we have been in business here in Dansville for over 40 years, and for a great many years, have advertised in farm papers like the Rural New Yorker, Farm Journal, Country Gentleman and magazines like House & Garden, and Garden; papers that guarantee to their subscribers the reliability of the firms that advertise with them.

TERMS

We allow a 10 per cent. discount on all cash orders mailed by April 1st. If it is not convenient to send cash for the full amount, we will ship stock C. O. D., providing one-fourth the total amount of the order is sent in cash with the order. If the shipment goes by Express, you pay the balance to your Express Agent upon arrival. If the order goes by Freight, you pay the balance at your bank where you will find Bill of Lading which you present to your Freight Agent who will deliver shipment to you.

MALONEY BROS. NURSERY CO. DANSVILLE, N.Y.

PEACHES

ELBERTA — The most popular variety of peach on the market. Very hardy and seldom fails to fruit abundantly.

Prices of All Varieties of Peach Trees

10 per cent. Discount on all Cash Orders mailed before April 1st

Peach Growing is To-day a Great Industry. In all probability more peaches are being planted annually than any other fruit. The comparative ease with which peach trees may be cultivated, the short period before they come into bearing, together with the wonderful demand for the fruit, makes peach growing extremely profitable.

Soil. Peach trees will succeed on any kind of rich soil, but will not thrive on clay, nor damp, low land.

Peach scions for budding were cut from bearing trees in the orchard of Frank E. Yarker, Charlotte, N. Y.

ALEXANDER—Medium, greenish white, nearly covered with rich red, melting, juicy, sweet. July 1st. Free.

BELLE OF GEORGIA—Very large, white peach with red cheek. The flesh is white, firm and of fine flavor. Tree rapid grower and very productive. Free.

CAPT. EDE — A handsome yellow peach, with a faint blush of carmine, resembles Elberta. Fine quality and a splendid shipper. Early September. Free.

CARMAN—Fruit large, color creamy white or pale yellow with deep blush; flesh tender, fine flavor and quite juicy; very hardy and productive. This is a favorite with many growers, as it is a most profitable variety. Early August. Free,

CHAIR'S CHOICE—Has no superior in quality and flavor, and for profit is without a rival; large, yellow, free, rich in color, flesh very firm, ripens after Smock; great bearer. October. Free.

CRAWFORD'S LATE—Fruit of large size; skin yellow, or greenish yellow, with a dull red cheek; flesh yellow; tree vigorous, moderately productive. Last of September. Free.

CRAWFORD'S EARLY — A magnificent large yellow peach, of good quality. Tree vigorous and very productive. Its fine size, beauty and productiveness make it one of the most popular sorts; no other variety has been so extensively planted. First of September. Free.

CHAMPION—Fruit large, beautiful in appearance, flavor delicious, skin creamy white, with red cheek; valuable for commercial orchards, extreme hardiness and splendid quality make it a favorite. Late August. Free.

CROSBY—Medium size; bright orange yellow streaked with carmine. One of the best standard market sorts. First of September. Free.

ENGLE'S MAMMOTH—Large, round, suture slight; yellow with red cheek; flesh yellow, stone small; sweet, rich, juicy. September. Free.

ELBERTA — The leader of all peaches and the greatest commercial variety on the market; 50 per cent. of the peaches planted are Elberta. In all probability no peach will succeed over so wide a range of territory as this kind. It will thrive where any peach can be grown. A beautiful peach of good quality, not only the best orchard variety, but also valuable for planting in the garden. Elberta is harder in bud than many varieties, therefore a more uniform cropper. It is large, yellow, with red cheek, juicy and high flavor; flesh yellow. Season medium early, following quick upon Early Crawford. Early September. Free.

FITZGERALD—It is one of the hardest peaches, both in bloom and tree; very prolific, large size. First of September. Free.

GREENSBORO—A valuable variety; color greenish-white, shaded and splashed with dark red, very hardy and not so subject to rot as are most early varieties. Owing to extreme hardiness of both tree and bud we recommend it for sections where other varieties do not succeed. Late July. Free.

HEATH CLING—Fruit very large. Skin is creamy white in color having a faint tinge of red on sunny side. It is unequalled by any other cling stone. Middle of September.

HILL'S CHILI—Fruit medium size, oblong; skin yellow, shaded with dark red; flesh yellow; very rich and sweet. First of September. Free.

HALE (New Yellow)—This notable new variety of peach is very large in size. In color it is a deep golden yellow overlaid with bright carmine. The flesh is deep yellow, fine grained with a very delicious flavor. Late August. Free.

KALAMAZOO — Large, golden yellow, with crimson cheek; flesh thick yellow, superb quality, small pit. Strong grower, early bearer, hardy and productive. First of September.

XXX XX X
1 YEAR PEACH TREES

MOUNTAIN ROSE—Large, red, white flesh, juicy and excellent. Early August. Free.

NIAGARA—Tree hardy, healthy in leaf and bud and bears abundantly. Fruit large, oval, yellow with brilliant red cheek. The stone parts freely from the flesh. Flavor rich and delicious, far ahead of Elberta in this respect. It is indeed a rival for this famous peach. Season is medium early, coming in just before Elberta, overlapping it one week. Last of August. Free.

OLD MIXON FREE—Large, roundish, yellowish, white, marked with red. Early September. Free.

ROCHESTER—Is in a class by itself because it is the only good sized yellow freestone peach of fine quality ready for market in the middle of August in the northern states. The fruit is large, yellow with a most attractive red blush; juicy and delicious and keeps well. Free.

SALWAY—Large, roundish ovate, yellow, with a crimson cheek; flesh deep yellow, red at the pit; sweet, juicy, good. Valued as one of the best late peaches for market. October. Free.

SMOCK FREE (Beers' Smock)—Fruit large; oval; skin orange yellow, mottled with red; a good market sort. Last of September.

WONDERFUL—Large peach, uniform in size and shape. Rich golden yellow color nearly covered with bright crimson. Middle of October. Free.

YELLOW ST. JOHN—Of medium size, orange yellow with a red blush on sunny side; flesh tender, juicy and quality very good. Tree is a strong grower and bears heavy crops every season. Reaches the market at a time when the demand for early fruit is at its height. Middle of August. Free.

Maloney Extra Large Garden Trees

FOR YOUR BACK YARD

By this we mean trees which have been especially selected, once transplanted and scientifically treated. They will come into fruiting early. We guarantee your success provided you follow the simple directions for planting on this page.

The value of these trees lies in the fact that they are what you might term "the cream of our nursery." We have cared for them until they have developed into just the kind of trees for your back yard or small home orchard.

A great many people make the very serious mistake of selecting small trees for their garden planting, when a few extra cents invested now will purchase trees which will fruit much earlier.

From the fact these trees have once been transplanted, they are equipped with a beautiful root system which en-

ables them to become established quickly. Before planting be careful to have your soil loose and mellow.

Just read the planting directions on this page and see how easy it will be for you to set your EXTRA LARGE GARDEN TREES.

PLANTING INSTRUCTIONS

Cut off about six inches of the limb growth, prune off bruised ends of roots, if any, make a smooth cut, dig hole deep enough so that the tree will be buried to the same depth as when standing in the nursery row, or up to the collar—soak roots in the water one-half hour, place trees in hole, fill in one-fourth, tread well; another one-fourth, tread well, the third one-fourth, tread well; then finish filling and tread firmly so that when the tree is set it would require a strong man to pull it out.

Prices of All Extra Large Garden Trees

	Height	Grade	Each	Ten

PLUM FARMER

Price of 2 Year Strong Plants Best Selected Varieties

25 for \$1.00

100 for \$3.50

1000 for \$28.50

10% Discount on all Cash Orders mailed before April 1st

CUMBERLAND NEW BLACK—This new berry combines the equally valuable characteristics of great firmness, splendid quality and wonderful productiveness. Fruit firm. Midseason.

KANSAS BLACK — This variety is a strong, vigorous grower, standing extremes of drought and cold, and bearing immense crops. Early. Berries size of Gregg; of better color; jet black and almost free from bloom; firm, of good quality.

PLUM FARMER BLACK — This very large and productive black raspberry has been thoroughly tested. It is a great favorite for market or home use. It is covered with a grayish bloom, like the bloom on a grape, which makes it very attractive in appearance. It ripens very early and quickly. The fruit is enormously large.

Purple Raspberries

25 for \$1.25

100 for \$4.00

1000 for \$30.00

COLUMBIAN PURPLE—A strong grower, unexcelled for productiveness and desirable for canning. Fruit very large, purplish color, rather soft; rich, sprightly flavor.

ST. REGIS

RED RASPBERRIES

Price of 2 Year Strong Plants
Best Selected Varieties

25 for \$1.00, 100 for \$3.50, 1000 for \$28.50

10 per cent. Discount on all Cash Orders
mailed before April 1st

CUTHBERT—This is a valuable variety well tested throughout the country. Cuthbert is a good vigorous grower and possesses vitality necessary for a popular variety. It yields bountifully of large and beautiful bright red berries, which are easily picked and always command good prices. No fruit grower can afford to omit planting Cuthbert, and surely no person who has a garden should attempt to get along without red raspberries.

LOUDON—Very hardy, yields 200 bushels per acre, bears best on strong clayey loam, but succeeds well on sand.

MARLBORO — A very profitable, early market variety with large, light crimson fruits, of good size and flavor. The crop covers a period of four or five weeks in ripening.

ST. REGIS (Everbearing)—This is a valuable addition to the Red Raspberry list. It is the only variety known that gives a crop of fruit the same year they are planted. Plants that are set early in the Spring will give a small crop of fruit the Fall following. In size, quality and quantity, to say nothing of its Fall bearing quality, it is ahead of anything we know of. About the middle of June it commences to set fruit on the young canes and bears continuously from then until frost. The berries are large, beautiful and attractive.

CUTHBERT

BLACKBERRIES

Price of 2 Year Strong Plants Best Selected Varieties

25 for \$1.50 100 for \$5.00 1000 for \$37.50

before April 1st

ELDORADO

BLOWERS—Claimed to be the hardest, most productive, of finest quality and to bring the highest market price.

ELDORADO—The vines are very hardy and vigorous, and their yield is enormous. The berries are large, jet black, borne in large clusters and ripen well together; they are very sweet, melting, have no hard core and keep for eight or ten days after picking with quality unimpaired.

MERSEREAU—Remarkably strong grower, upright, producing stout, stocky canes. An enormous producer of extra size berries, which are brilliant black and retain color; extra quality; sweet, rich and melting, without core. Ripens very early.

MINNIEWASKA — This wonderful, hardy, productive, good blackberry has not been forgotten by us, or our old patrons. Its principal points are hardiness, excellent quality, earliness, and continued bearing and productiveness.

SNYDER — Extremely hardy, enormously productive; medium size, no hard, sour core; sweet and juicy. ripens early.

MALONEY BROS. NURSERY CO. DANSVILLE, N.Y.

STRAWBERRIES

Price of Strong Plants

25 for \$1.00 100 for \$2.00 1000 for \$12.00

GIBSON—(Per.) Gibson is fast becoming the leading commercial variety in the U. S. It grows and succeeds in every soil and climate, which cannot be said of many varieties. If restricted to one variety, Gibson is the berry we would choose.

SENATOR DUNLAP—(Per.) Season early to medium; popular market sort. It withstands all conditions of weather beyond the average. Very productive; dark red all through.

WILLIAM BELT—(Per.) A handsome variety that is giving remarkable satisfaction as a large productive berry for market or home use.

BRANDYWINE — (Per.) Late. The strong, upright growing plants produce an abundance of very large berries on erect fruit stems. They are of good color and shape and possess a very fine, peculiar flavor. Begins to ripen in mid-season, and continues until blossoms are killed by the frost.

CORSICAN — A great strawberry for many reasons. First, it is the biggest berry; second, it is the brightest and best in color; third, it is a great yielder and producer.

CORSICAN

Fall Bearing Strawberries

Price—25 for \$2.00, 100 for \$4.50

Americus Superb Productive

These varieties will fruit from June until freezing weather,

10 per cent. Discount on All Cash Orders mailed before April 1st

States Into Which Currants Can be Shipped

Connecticut	Indiana	Michigan	New Jersey
New York	Ohio	Pennsylvania	

CHERRY — Bush vigorous, stocky and compact; cluster rather short, with short stems; fruit averages large; color fine, bright red; berry thin skinned, juicy and fine flavored. One of the most productive of the large currants.

DIPLOMA — Large, solid and of good quality, very attractive appearance, both clusters and berries being very large. Vigorous grower and the most productive red currant.

FAY'S PROLIFIC — Bush vigorous but not quite so strong a grower as Cherry. Cluster medium to long, with rather long stems. Color darker and berry averages large. Juicy and less acid than Cherry.

PERFECTION — In color it is a beautiful bright red, a size larger than the Fay; clusters average longer and the size of berries is maintained to the end of the bunch.

RED CROSS — A strong growing variety. Cluster long; berry medium to large, bright red; quality good to best. It is exceedingly productive, and the currants are of large size. Further than this, the fruit is far sweeter than ordinary currants.

WHITE GRAPE — Berries large to very large, averaging large; of very attractive color, mild flavor and good quality.

WILDER — Bush upright, vigorous; clusters above medium length; berries large to very large, averaging large; bright red; excellent, with a mild sub-acid flavor. Ripens early and remains bright and firm until very late. Because of its exceedingly vigorous growth, great productiveness, and high quality we recommend this as one of the best red currants.

WILDER

DOWNING

GOOSEBERRIES

Plant in good rich soil and give a liberal dressing of manure every season. Regular pruning every year is essential for the production of fine fruit.

States Into Which Gooseberries Can Be Sent

Connecticut	New Jersey	Indiana
New York	Pennsylvania	
Michigan	Ohio	

Prices for all varieties of Gooseberries named below, strong 2 year bushes, 30 cents each, 10 for \$2.50, 100 for \$22.50.

if not the first year planted. The fruit is of large size, color dark red.

DOWNING — The value of Downing lies in its large size, fine quality, beautiful appearance, vigorous growth, and freedom from mildew. Downing is free from spines, of a transparent color, tending to yellow; bush upright, keeping the fruit from the sand. Enormously productive.

JOSSELYN — Marvelously productive and bears second,

27

smooth, prolific and hardy, of best quality. Has been well tested over a wide extent of territory by the side of all the leading varieties, and so far the most free from mildew, both in leaf and fruit, of them all. A wonderful cropper.

GRAPES

Price of 2 Year, No. 1 Strong Vines, All Varieties Except Concord—Each 20 cents, 10 for \$1.80, 100 for \$17.00

CONCORD—Each 15 cents, 10 for \$1.40, 100 for \$10.00

2 Year No. 1 Strong Vines

10 per cent. Discount on All Cash Orders mailed before April 1st

Every city and country garden should have a dozen or more grape vines. They do admirably trained up the side of any building, or along the garden fences, occupying but little room and furnishing an abundance of the healthiest fruit. Plant about 8 feet apart, by the fence or building. For vineyards, make rows 8 feet apart, 6 to 10 feet in rows.

CONCORD

GRAPE COLLECTION FOR \$2.50

2 Year, No. 1 Strong Vines

4 Concord	2 Catawba	3 Niagara
2 Lucile	3 Delaware	2 Campbell Early

LUCILE—Bright red. It is very hardy and vigorous. Bunches and berries medium to large. This variety is a very good shipper.

CATAWBA—Dark red when fully ripe. Bunch large, berries medium to large, skin thick, flesh somewhat pulpy, best quality for wine.

CONCORD—Black. Early. Decidedly the most popular Grape in America and deservedly so. Bunch large, shouldered, compact; berries large, covered with a rich bloom, skin tender, but sufficiently firm to carry well to distant markets; flesh juicy, sweet, pulpy, tender; vine a strong grower, very hardy, healthy and productive. For general cultivation the most reliable and profitable variety.

CAMPBELL'S EARLY BLACK—Strong grower, productive. Its keeping and shipping qualities are equalled by no other grape. Bunch and berry very large, glossy black with blue bloom, sweet and juicy, seeds few and small, parts readily from the pulp. Stands at the head of early black grapes for quality.

DELAWARE—Red. Bunches small, compact, shouldered, berries rather small, round, skin thin, flesh very juicy, sweet, spicy and delicious.

MCKINLEY EARLY—(New White) Strong grower; bunches large, compact and handsome, berries large and oval like Malaga Grapes; green at first, turning to yellow when fully ripe.

MOORE'S EARLY BLACK—Bunch large, berry large, round with heavy bloom; vine exceedingly hardy. Its earliness makes it desirable for an early market.

NIAGARA WHITE—Occupies the same position among the white varieties as Concord among the black; the leading profitable market sort. Bunch and berries large, greenish white changing to pale yellow when fully ripe. Skin thin but tough; quality much like Concord.

WORDEN—Black. Bunch large, sometimes shouldered, compact; berries very large, skin thin.

May 11, 1925

Maloney Bros.
Danville, N. Y.

Dear Sirs:
Have enclosed check to cover shipment of the 9th. Wish to thank you for your prompt service and also for all past orders.

To show what a few dollars will do, spent in good quality, live stock of shrubs, etc. wish to say that I purchased a place, rebuilt same and set out flowers, shrubs, and fruit trees, (and have) I'll say that nearly all came from Maloney Bros. and by so doing I received a thousand dollars more for the place than I would have if the place were here, and mind you, less than \$100.00 worth of shrubs, etc. did the trees. Of course this might not happen every time, but to plant shrubs, is a mighty good investment, I've found out.

Thanking you again, and always recommending you.

I remain,
Yours truly,
Conley H. Conley

May 30, 1925

Maloney Bros. Nursery Co.
Danville, N. Y.

Gentlemen:

We are pleased to advise that the nursery stock ordered from you this Spring, all arrived in first class condition and we are more than pleased with it.

There doesn't seem to be one plant among the Frivets that is not thriving. The size of the plants caused quite a stir around town. I shipped as our local nurserymen all charge \$10 per hundred for stock that is not half as good as far as roots are concerned, so I shouldn't wonder if you received considerable business from this town after this year.

The reason we have not written sooner is because we were quarantined here, but I take this opportunity of thanking you for your promptness as well as the good quality of the goods shipped.

Yours very truly,

Chas. W. Courtney

ORNAMENTALS

AMERICAN ELM — A natural spreading and drooping tree of our own American meadows and forests. It is very attractive in any suitable location, is entirely hardy and easily transplanted. There are more Elm trees planted along our streets and highways than any other variety.

Price, 10 to 12 feet, \$2.00 each, 10 for \$17.50; 8 to 10 feet, \$1.50 each, 10 for \$12.50.

ASH, MOUNTAIN—A very beautiful tree for ornamental planting. In the early Fall it bears clusters of bright red berries.

Price, 5 to 6 feet, \$1.50 each; 10 for \$12.50

BECHTEL'S CRAB—When in bloom appears to be covered with delicate pink, perfectly double small roses of delicious fragrance.

Price, 4 to 5 feet, \$1.50 each

CATALPA BUNGEI (Umbrella Catalpa) — Grafted on stems 6 to 7 feet high, it makes an umbrella shaped top without pruning. Perfectly hardy, and flourishes in almost all soils and climates. Leaves large, glossy, heart-shaped. A very desirable ornamental.

Price of Trees, 6 to 7 feet, \$2.75 each.

CATALPA SPECIOSA—One of the most rapid growers. Large, heart-shaped, downy leaves, and compound panicles of white flowers.

Price, 6 to 8 feet, 60 cents each.

10 for \$5.00; 8 to 10 feet, 85 cents each, 10 for \$8.00.

CUT-LEAVED WEEPING BIRCH — This noble tree is not only the most popular of the weeping trees, but it is decidedly the best. Its tall, slender, yet vigorous growth, graceful branches, silvery white bark and delicately cut foliage, present a combination of attractive characteristics rarely met with in a single tree.

Price, 5 to 6 feet, \$2.00 each.

CATALPA BUNGEI

BECHTEL'S FLOWERING CRAB

HORSE CHESTNUT, WHITE FLOWERING—The well-known European species; very handsome; has magnificent spikes of white flowers. As a lawn tree or for the street it has no superior.

Price 5 to 6 feet, \$2.00 each.

MAPLE, ASH-LEAVED (Box Elder)—A fine, rapid-growing variety, with handsome, light green foliage and spreading head; very hardy; desirable for street planting and succeeds in many sections where other varieties do not thrive.

Price, 8 to 10 feet, \$1.75 each, 10 for \$15.00; 10 to 12 feet, \$2.00 each, 10 for \$17.50.

MAPLE, NORWAY—This is one of the hardiest ornamental shade trees, and one of the most beautiful. It makes more of a wide spreading tree than the sugar maple.

Price, 10 to 12 feet, \$4.00 each, 10 for \$37.50; 8 to 10 feet, \$3.75 each, 10 for \$35.00.

MAPLE, SILVER-LEAVED OR SOFT—Foliage bright green above and silvery underneath. An exceedingly rapid grower. Makes a large tree. A very satisfactory tree to plant in large quantities.

Price, 10 to 12 feet, \$2.50 each, 10 for \$22.50; 8 to 10 feet, \$2.25 each, 10 for \$20.00.

MAPLE, WIER'S CUT-LEAVED—One of the most remarkable and beautiful trees, with cut or dissected foliage. Its growth is rapid, shoots slender and drooping, as graceful as cut-leaved birch.

Price, 8 to 10 feet, \$2.50 each, 10 for \$22.00; 6 to 8 feet \$2.00 each, 10 for \$17.50.

MAPLE, SUGAR OR ROCK—This native tree of ours is a universal favorite for street planting, and desirable everywhere. It is considered a slow grower, but it is long-lived.

Price, 8 to 10 feet, \$3.00 each, 10 for \$27.50; 6 to 8 feet, \$2.50 each, 10 for \$22.50.

MULBERRY, DOWNING—This tree is not alone valuable for the large refreshing berries it bears, but is very handsome as a lawn or street tree. This should be in every yard or garden.

Price, 6 to 8 feet, \$1.00 each, 10 for \$7.50.

MULBERRY, RUSSIAN—Very hardy, vigorous grower, very productive, fruit black and of medium size.

Price, 5 to 7 feet, 75 cents each, 10 for \$6.50.

MULBERRY, TEA'S WEEPING—The most graceful and hardy weeping tree in existence. Forms a perfect shaped head, with long, slender, willowy branches, drooping to the ground.

Price, 5 feet, \$3.00 each.

NORWAY MAPLE

POPLAR, CAROLINA—Is one of the most rapid growers among shade trees, frequently growing eight feet during one season and thus making fine shade in two or three years. It has an advantage over other shade trees because it will grow in any kind of soil.

Prices, 10 to 12 feet, \$1.25 each, 10 for \$10.00; 8 to 10 feet, \$1.00 each, 10 for \$7.50; 6 to 8 feet, 75 cents each, 10 for \$5.00.

POPLAR, LOMBARDY—A well-known variety from its tall spire-like form. Where it is desired to mark a boundary line, or where there is an entrance to a driveway these trees are very effective. They transplant safely, grow quickly and for many purposes are attractive and desirable.

Price, 6 to 8 feet, \$1.00 each, 10 for \$8.50; 8 to 10 feet, \$1.25 each, 10 for \$11.50.

THORN, DOUBLE PINK—Double pink or rose flowers with white tips.

Price 4 to 5 feet, \$2.00 each.

THORN, PAUL'S DOUBLE SCARLET—Flowers deep crimson with scarlet shade; very double.

Price 4 to 5 feet, \$2.00 each.

WILLOW BABYLONICA—Our common well-known weeping variety: forms a large round-headed, graceful tree; requires plenty of room, and where space can be spared, is quite desirable.

Price, 6 to 8 feet, \$1.25 each.

WIER'S CUT-LEAF MAPLE

WILLOW, GOLDEN—This willow is especially desirable on account of its golden colored bark with light green leaves. A splendid grower.

Price, 6 to 8 feet, 85 cents each; 8 to 10 feet, \$1.00 each.

CUT-LEAVED WEEPING BIRCH

EVERGREENS

Evergreens are increasing in popularity rapidly. We are now giving special attention to the propagation and culture of perfectly hardy species and varieties, such as are most useful to the general planter.

We recommend Spring planting. All Evergreens will be lifted with ball of earth and roots wrapped in burlap,

When planting set evergreens in tub of water so ball is covered for $\frac{1}{2}$ hour. Wet ground after planting until like mud, then two pails of water each week for first summer.

10 per cent. Discount on All Cash orders
mailed before April 1st

AMERICAN ARBOR VITAE—A beautiful native tree much used for hedges, screens, singly on lawn and in tubs for porches. Can be trimmed and kept in any form or height.

Price, 2 to 3 feet, \$1.75 each, 10 for \$15.00

BLACK HILL SPRUCE—Makes a very close and compact growth. The foliage shades from green to a bluish tint. This is a very hardy variety.

Price, 2 to 3 feet, \$1.75 each, 10 for \$15.00

COLORADO BLUE SPRUCE—This is hardy, healthy and very beautiful. Its foliage is a steel blue.

Price 2 to 3 feet, \$6.00 each.

TOM THUMB ARBOR VITAE—Small and compact. Very

EVERGREEN COLLECTION—\$40.00

4 White Spruce	2 Pyramidal Arbor Vitae
2 Irish Juniper	2 White Pine
6 Tom Thumb Arbor Vitae	

desirable for planting in evergreen groups and low hedges.

Price 15-18 inches, \$3.50 each.

JUNIPER PROSTRATA—Low with long trailing branches. Valuable for ground covering.

Price 12-18 inches, \$1.75 each.

IRISH JUNIPER—A distinct and beautiful variety forming a tapering column. Much used for cemetery plantings. Price, 2 to 3 feet, \$2.00 each, 10 for \$17.50.

NORWAY SPRUCE—The most extensively planted of all evergreens. It is a rapid grower, extremely hardy. Is often used for hedges or can be planted effectively in groups.

Price, 2 to 3 feet, \$1.75 each, 10 for \$15.00

PYRAMIDAL ARBOR VITAE—A valuable upright evergreen of dense compact habit. Foliage light green.

Price, 2 to 3 feet, \$3.50 each

WHITE SPRUCE—Extremely hardy. On account of its compact habit of growth, regular conical outline and

soft bluish green color, it is very desirable for ornamental planting.

Price, 2 to 3 feet, \$2.00 each, 10 for \$17.50

WHITE PINE—A very rapid grower. The branches are heavy and strong. Foliage is a silvery green.

Price, 2 to 3 feet, \$2.00 each, 10 for \$17.50

HEDGE PLANTS

CALIFORNIA PRIVET HEDGE

10 per cent. Discount on all Cash Orders mailed before April 1st

BARBERRY THUNBERGII—A pretty plant of dwarf habit from Japan. Very graceful and its foliage turns to a beautiful red in the Fall.

2 Year Strong Plants, well branched, 18 to 24 inches, 10 for \$3.50, 100 for \$30.00; 2 to 3 feet, 10 for \$5.50, 100 for \$35.00.

PRIVET, AMOOR RIVER—Hardy. Of similar form to the California type, not so lustrous, but the safest substitute for cold climates.

2 Year Strong Plants, well branched, 18 to 24 inches, 10 for \$1.75, 100 for \$8.00, 1000 for \$70.00; 2 to 3 feet, 10 for \$2.00, 100 for \$10.00, 1000 for \$80.00.

PRIVET, CALIFORNIA—A vigorous-growing variety of fine habit, thick, glossy, nearly evergreen leaves. Of all ornamental hedge-plants this is the most highly prized. If cut to the ground one or two years after planting, it makes a very thick hedge right from the bottom, sending up many strong shoots. The leaves are a rich green and will remain on the plants up to Christmas, and if they are a little sheltered they will keep green almost all winter. Set one foot apart in double rows or 20 to each 10 feet. Plant alternately—rows one foot apart.

2 Year Strong Plants, well branched, 18 to 24 inches, 10 for \$1.50, 100 for \$7.00, 1000 for \$65.00; 2 to 3 feet, 10 for \$1.85, 100 for \$8.00, 1000 for \$75.00.

SPRUCE, NORWAY—This spruce is a rapid grower and is often used as a hedge fence between lots. Norway Spruce can be planted most effectively in groups on the lawn, but far enough apart to give each tree an opportunity to expand itself in its beauty.

Price, thrifty trees, 18 to 24 inches, each \$1.50, 10 for \$13.50, 100 for \$115.00; 2 to 3 feet, each \$1.75, 10 for \$15.00, 100 for \$125.00.

(Balled and Burlapped)

IBOTA PRIVET—Spreading and tall growing. It has dark glossy green foliage. This is a very hardy hedge and succeeds well in cold climate.

Price, 2 Year Strong Plants, well branched, 2 to 3 feet, \$2.50 per 10, \$12.00 per 100, \$100.00 per 1,000.

BARBERRY THUNBERGII

VINES

WISTERIA, PURPLE

TRUMPET VINE—A robust, woody vine. Its orange scarlet, trumpet-shaped flowers cluster at the tip of the branches.

Price of strong 2 year plants, 65 cents each.

MAD. ANDRE CLEMATIS—The flowers are a distinct crimson red.

Price, 2 year plants, 85 cents each.

WISTERIA, CHINESE PURPLE—A most beautiful climber of rapid growth and producing long pendulous clusters of flowers.

Price of strong 2 year plants, 50 cents each.

AMPELOPSIS VEITCHI—(Boston Ivy.) This is one of the finest climbers we have for covering walls, as it clings firmly to the smoothest surface, covering it closely with overlapping foliage, giving it the appearance of being shingled with green leaves.

Price of strong 2 year plants, 75 cents each.

AMERICAN IVY OR VIRGINIA CREEPER—(A. Quinquefolia.) A native vine of rapid growth, with large luxuriant foliage.

Price of strong 2 year plants, 75 cents each.

DUTCHMAN'S PIPE—Brownish flowers, resembling a miniature pipe; splendid for archways or verandas.

Price of strong 2 year plants, \$1.00 each.

HALLEANA—(Hall's Japan Honeysuckle.) An almost evergreen honeysuckle of the greatest value, being hardy and of strong growth. The flowers are fragrant, of a pure white changing to yellow.

Price of strong 2 year plants, 50 cents each.

HENRYII CLEMATIS—A vigorous grower and a free bloomer, producing its large pure white flowers constantly during the summer and early autumn.

Price of strong 2 year plants, 85c each.

JACKMANNI CLEMATIS—The flowers are large, intense, rich, velvety violet-purple, and are produced in such masses as to form a cloud of bloom. Price of strong 2 year plants, 85 cents each.

PANICULATA CLEMATIS—Rapid grower, covering trellises and arbors with handsome, clean, glossy foliage. The flowers are of medium size, fragrant, pure white, borne in immense sheets in September, when very few other vines are in bloom.

Price of strong 2 year plants, 50 cents each.

Price of strong 2 year plants, 50 cents each.

NUT TREES

English Walnuts are regular bearers, for the fruit buds are hardy and never injured by late frosts. Nut culture in the United States is in its infancy. The English Walnut can be grown in the Northern and Eastern States, as well as in California and the South, for nuts grown here find a much more ready sale at advanced prices, as the flavor is decidedly better. The constant and growing demand for English Walnuts, and the immense quantities of them yearly imported to meet it, have given a great impetus to the planting.

So palatable and wholesome are the nut kernels, that they should become a staple article of food here as in Europe.

Until recently attention has been given to the planting of English Walnuts, therefore, it may be truly said he who plants now, is bound to reap splendid returns. Most farms contain land that would pay better planted to English Walnuts, than anything else, for they will thrive on such land as is suitable for raising potatoes, corn and grain.

Every garden or lawn should also contain one or more of the trees for they are well shaped and provide splendid shade.

10 per cent. Discount on all Cash Orders mailed before April 1st

CHESTNUT, AMERICAN SWEET—Adapted to a great portion of this country. It is valuable as a nut producing tree, timber and ornamental purposes.

Price of 4 to 5 feet trees, \$1.25 each. \$10.00 for 10.

CHESTNUT, SPANISH—A handsome round-headed tree, producing abundantly, very large nuts that find a ready market at good prices.

Price of 4 to 5 feet trees, \$1.25 each. \$10.00 for 10.

PECANS—This tree is very productive and nuts delicious.

Price, 3 to 4 feet, \$1.25 each.

BUTTERNUT—A fine native tree producing a large, longish nut, which is prized for its sweet, oily, nutritious kernel.

Price 4 to 5 feet, \$1.00 each, \$9.00 per 10.

WALNUT, ENGLISH—A fine, lofty growing tree, with handsome, spreading head; produces large crops of thin-shelled, delicious nuts which are always in demand at good prices. Every home garden should have one or more English Walnuts. Tree very hardy.

Price, 3 to 4 feet, \$2.00 each. \$19.00 for 10.

WALNUT, BLACK—The common well-known Black Walnut, the wood of which is most beautiful and valuable. It is very productive in nuts, which are liked by many.

Price 5 to 6 feet, \$1.00 each. 4 to 5 feet 75 cents each.

SHRUBS

Price of all 2 Year Hardy Shrubs, $2\frac{1}{2}$ to $3\frac{1}{2}$ Feet, each 60 cents,
10 for \$5.50.

10 per cent. Discount on All Cash Orders mailed before April 1st.

SHRUBS FOR SHADY PLACES—Barberry, Dogwood, Hydrangea Arborescens, Forsythia, Honeysuckle, Snowberries, Snowball, Deutzia, Pride of Rochester, Spiraea Van Houttei, Spiraea Billardi.

Shrubs for Foundation Plantings, and How to Plant Them as to Size:

Dwarf Growing—Barberry, Deutzia Gracilis, Spiraea Anthony Waterer, Spiraea Thunbergii.

Medium Growing—Spiraea, tall varieties; Deutzias, tall varieties; Forsythia, Hydrangea, Weigela, Snowberry.

Tall Growing for Heavy Plantings or Corners—Althea, Bush, Honeysuckle and Lilacs,

Shrubs whose Flowers are Succeeded by Ornamental Fruit—Barberry, Elder, Coralberry and Snowberry.

Shrubs with Variegated or Colored Foliage—Elder, Golden and Syringa, Golden.

Shrubs are useful in bringing out the full beauty of a house. Splendid effects can be had by planting an assortment of flowering shrubs on the lawn, not at all difficult to arrange them, for a group planted promiscuously here and there has a splendid effect.

Maloney shrubs are hardy, upland grown at an elevation of 1,500 feet; varieties listed are the hardest, most beautiful and lasting, thrive everywhere and need little care or attention when once established. Year after year they grow larger and more beautiful.

Some shrubbery needs more pruning than others. They should all be trimmed enough to keep them shapely.

Hydrangea should be cut back every Spring one-half of the last year's growth. The altheas can be pruned to suit your own fancy.

ALMOND—Flowering. A very beautiful shrub covered in May with rose colored blossoms resembling small roses.

ALTHEA—A large shrub, sometimes trimmed into tree form, that blooms freely in August or September, when almost every tree is out of bloom. Vigorous grower and succeeds everywhere. Also called Rose of Sharon. We can furnish double varieties in these colors: Althea Double Purple, Red, Pink and White.

BUTTERFLY BUSH—Seems to attract butterflies in large numbers. It produces long, graceful stems which terminate in tapering panicles of beautiful lilac-colored flowers that are of miniature size and borne by the hundreds on a flower head which is often ten inches long. It blossoms from early summer till frost; splendid for cutting.

GOLDEN LEAVED ELDER IN BLOOM

SNOWBALL, COMMON

BARBERRY THUNBERGII — A pretty plant of dwarf habit from Japan. Very graceful and its foliage turns to a beautiful red in the Fall. All barberries make very fine hedges.

CALYCANTHUS — (Sweet-scented shrub.) The wood is fragrant; foliage rich; flowers are of chocolate color, having a peculiarly agreeable odor.

CORALBERRY—Vigorous, quick growing shrub similar to snowberry, except fruit is red.

DEUTZIA, GRACILIS—Pure white flowers in June. Two feet high when fully grown.

DEUTZIA, CRENATA, DOUBLE-FLOWERING — A hardy, vigorous shrub that does not suffer from insects or diseases and early in the season is fairly covered with very showy double white flowers that on the edge are slightly tinged with rose. Handsome, desirable shrub.

DEUTZIA, LEMOINEI — Dwarf, the flowers are large, pure white and produce freely.

DEUTZIA, PRIDE OF ROCHESTER—Blooms in May. Double, white.

DOGWOOD — **Red:** Very conspicuous in winter when branches turn to blood red.

DOGWOOD—**White:** Large white flowers in Spring before the leaves appear. Stem and branches turn to blood red in winter.

DOGWOOD—**Yellow:** A striking yellow branched form. Very satisfactory for contrast.

DEUTZIA—PRIDE OF ROCHESTER

SYRINGA MOCK ORANGE,
WHITE

A FOUNDATION PLANTING OF SPIRAEA VAN HOUTTEI AND DEUTZIA GRACILIS

FORSYTHIA FORTUNEI—(Golden Bells.) Deep yellow flowers in great profusion in April.

GOLDEN-LEAVED ELDER—The best of all the colored shrubs. A plant of this bush in a bed, or a border, or on the lawn, is a conspicuous feature, the foliage being as yellow as gold.

HYDRANGEA PANICULATA GRANDIFLORA — Absolutely hardy; thrives in all soils; grows rapidly and blossoms profusely. The flowers are pure white, afterward changing to pink, and are borne in large pyramidal trusses often more than a foot long and six to eight inches in diameter. Begins to bloom early in August, and continues to bloom for several weeks. Wherever known it is considered to be one of the finest flowering shrubs.

HYDRANGEA ARBORESCENS GRANDIFLORA ALBA—(Hills of Snow.) This hardy American shrub is the very finest addition to this class of plants. The blooms

are of the very largest size, of pure snow-white color in July and August, and the foliage is finely finished.

LILAC, PURPLE—An old favorite; purple flowers.

LILAC, WHITE—A well known favorite.

MOCK ORANGE—Flowers white, deliciously perfumed. Derives its name owing to flowers resembling orange blossoms; a delightful substitute for that noble flower.

QUINCE, JAPAN—Dark green foliage, and showy deep, scarlet flowers of good size.

SNOWBALL, COMMON—A popular shrub. Makes a large bush. Bears balls of pure white flowers in June.

SNOWBALL, JAPAN—Erect, compact, with purple tinted corrugated foliage; a solid mass of white in June.

SNOWBERRY — Very ornamental, hardy shrub. Small, pink flowers followed by large, waxy white berries, which remain during winter.

SPIRAEA PRUNIFOLIA—Blooms early, and is very effective. Small, double white flowers.

SPIRAEA ANTHONY WATERER—A dwarf variety of great beauty. Its broad flat heads of red flowers continue in perfection all summer.

SPIRAEA BILLARDI — A hardy, free growing shrub. During July every branch and twig is tipped with a spike of beautiful blood-red flowers 4 to 6 inches in length.

SPIRAEA CALLOSA ROSEA—Has large panicles of deep rose-colored flowers in July and August, blooms nearly all summer; fine.

SPIRAEA DOUGLASI — Has spikes of beautiful, deep rose-colored flowers in July and August.

SPIRAEA VAN HOUTTEI—This is undoubtedly the best of the spiraeas. White blossoms in May and June.

SYRINGA, COMMON—Large, white flowers; very hardy.

SYRINGA, GOLDEN—Large, deep yellow flowers; bush hardy.

UPRIGHT HONEYSUCKLE—(Pink.) Pink flowers which contrast beautifully with the foliage.

WEIGELA, CANDIDA — The flowers are of the purest white, blooming in June, and all summer. Hardy.

WEIGELA, EVA RATHKE — Showy, bright red flowers borne freely during the summer.

WEIGELA, FLORIBUNDA—Flowers dark crimson, with white stamens somewhat like Fuchsia flowers. Blooms in the Spring and in the Fall.

WEIGELA ROSEA—One of the most charming shrubs in cultivation; it cannot be too highly recommended; the flowers are large and of deep rosy color, and are borne in great profusion.

Hydrangea — Tree Form

Same as Hydrangea P. G. except in tree form, being grafted on a Hydrangea stalk. When in full bloom are very attractive. 3 to 4 feet, \$1.50 each.

HYDRANGEA TREE

The Landscape Department

Owing to the many requests, asking what varieties of trees, shrubs, roses, etc., to plant for best effects and where to plant them, we started a Landscape Service Department last year for the convenience of our customers.

In this department we are employing landscape architects, who are familiar with the habits of varieties, who know the positions required for the different kinds, and who have an extensive knowledge of trees and plants.

Last year we offered this service free, but this was not exactly satisfactory, as some people seemed to feel that it put them under obligation to us—so this year we have hit upon another plan which we think will be satisfactory to everybody, namely, send in the information requested below, and our landscape department will draw you a complete plan showing what varieties to use and where to plant them. For this plan we will make a charge of \$4.00. Then if you decide to use the plan in whole or in part, we will give you credit for the entire \$4.00 on your invoice for the stock.

If you want us to plan your planting, please give us this

Necessary Information

(The accuracy of our plan depends upon the information you give us, so be complete and exact)

Dimensions of Property, Dimensions of Buildings (Show ground floor plan on sketch and give complete dimensions)—Distance of Buildings from Property Lines (Locate in respect to Front, Back and Side Lines) Cost of House, Style of Architecture—Locate all entrances, Locate walk and drives and give width; Locate porch and basement windows; (Indicate Coal and Laundry Windows); Show number of steps; Locate existing trees and shrubs of any description; Indicate any terraces or sloping ground; Give directions of the compass; Indicate objectionable features to be screened; Indicate views to be retained; Send any available photographs. Do you want a vegetable and front garden? Do you want a Hardy Flower Garden?

Remember the plan costs \$4.00. But if you buy the stock from us this \$4.00 will be deducted from the purchase price.

Strong Bushes, 2 year, No. 1, 85 cents each,
10 for \$8.00.

10 per cent. discount on All Cash orders mailed before
April 1st

ANNE DE DIESBACH—Carmine, a beautiful shade; very large. A superior garden sort; fragrant; one of the hardiest.

BLANCHE ROBERTS—Pure white, large and full, buds very beautiful. A strong grower and a desirable variety.

BABY RAMBLER—A dwarf (bush). Just the thing for beds and borders and for edging walks. They are bound to take the place of geraniums and other plants which have to be removed each year. You can have them in crimson and white.

BARON DE BONSTETTEN — Flowers large and very double; color rich, dark red, passing to deep velvety maroon. Very fragrant.

BUTTERFLY ROSE — Bright pink shading to Apricot and gold. Blossoms are large. Very prolific bearer.

CLIO—New. The perfection in Hybrid Perpetuals. Of delicate satin blush with a little deeper center. Large, well shaped and very double. Strong, robust, hardy and prolific. A jewel.

COLUMBIA—A beautiful true pink; deepening as it matures to a warm, glowing tone, which is enduring. Its unusual double petalage and substance make it a good summer rose, while the great size, color and long (almost thornless) stems mark it as a superior cutting variety.

CRUSADER—Upright, vigorous plant, producing freely large crimson flowers, shading from a lighter center to deep outer petals.

FRANCIS SCOTT KEY—Red, shading to cerise. Great profusion of petals, regularly arranged. Sturdy and a good bloomer.

FRAU KARL DRUSCHKI—Snow Queen. The finest white Hybrid Perpetual rose, with large, full flowers of splendid form. It is marvelous in its beauty in half opened bud and in the pure white of the full opened bloom. It holds its foliage well and is healthy and vigorous and in hardness it equals any of the Hybrid Perpetuals.

GENERAL JACQUEMINOT — Brilliant crimson; large and fine. Beautiful in bud and a universal favorite.

GENERAL MACARTHUR—Dazzling crimson scarlet, exquisitely perfumed. One of the grandest red roses ever offered, either for cutting or bedding.

GRACILIS—Moss rose. Deep pink, well mossed. Very beautiful. Keeps quite long after cutting. Bush extremely hardy. Will thrive where many roses fail.

FRAU KARL DRUSCHKI ROSE

GUSS AN TEPLITZ — The color is brightest scarlet, shading to deep, rich, velvety crimson. It is very fragrant, the freest grower and most profuse bloomer.

HUGH DICKSON—Intense crimson, shaded scarlet; very large, full and magnificent form, with high pointed center; growth upright and vigorous, free and continuous blooming; is the finest of all autumn roses, highly perfumed.

J. L. MOCK—A hardy rose, very large, full and fragrant. Petals silvery pink, shading to carmine pink. Vigorous in growth and a continuous bloomer. See back cover for colored reproduction.

2 Kaiserin Augusta Victoria	3 Gruss An Teplitz
2 Los Angeles	3 Red Radiance
3 LaFrance	3 Butterfly

KAISERIN AUGUSTA VICTORIA — A beautiful rose, with elegant, large pointed buds and very large, full double flowers; color, delicate creamy white; deliciously fragrant.

KILLARNEY PINK — One of the most popular of our garden roses. It is perfectly hardy, a robust grower; color of sparkling, brilliant, imperial pink.

KILLARNEY WHITE — Similar to Killarney Pink in size, shape and fragrance but pure white.

LA FRANCE — Rich satiny peach, changing to deep rose; large and full. A constant bloomer. The sweetest of all.

LOS ANGELES — Flame pink toned with coral and shaded gold at base of petals. Stems long and flowers large.

MAD. CAROLINE TESTOUT — One of the most popular of the Hybrid Teas for the garden. The flowers are extra large, and a brilliant, shining pink.

MAGNA CHARTA — Pink and carmine; very large and full; a profuse bloomer. Fragrant. Free grower.

MAMAN COCHET — This superb rose is well known as a queen among roses. One of the best and most beautiful pink varieties grown, and quite hardy. The flowers are of enormous size, borne on long, strong stems, just right for making bouquets.

MARGARET DICKSON — New, perfectly hardy and very vigorous. A free summer and autumn bloomer. Flowers white with pale flesh center, of a waxy texture and delightful fragrance.

MARSHALL P. WILDER — Bright cherry carmine; very fragrant and one of the freest bloomers; vigorous.

MRS. AARON WARD — Buds are deeply cupped, the open flowers delightfully attractive. Color, deep golden orange, shading outward to creamy yellow.

MRS. LAING — Very free flowering; commences early and continues to bloom profusely until Fall. Delicate pink color. Very fragrant.

OPHELIA — Blossoms are large, full and perfect in form and appearance. Attractive light salmon, flesh coloring shading to yellow.

PAUL NEYRON — The largest of all. Deep rose color. A free bloomer and vigorous grower.

PREMIER — Rich, dark pink flowers of good size, fine form, pleasing fragrance.

PRINCE CAMILE DE ROHAN — Very dark velvety crimson, changing to intense maroon.

RED RADIANCE — The wonderful, globular, heavy-stemmed "Radiance" duplicated in all respects except color; this sport form being a brilliant crimson,

CRIMSON RAMBLER

SUNBURST — Flowers superb cadmium yellow, with orange yellow center, large, fairly full, of cupped form. The buds generally borne singly on long, stout stems are long and pointed; opening well.

ULRICH BRUNNER — Large flowers of light red. Shade peculiar to the Ulrich Brunner. The abundant flowers grow on long stems borne by a plant of very vigorous growth.

Climbing Roses

Price, 2 Year No. 1 Bushes,
70 cents each, 10 for \$6.50

BALTIMORE BELLE — Pale blush, nearly white. Bloom in clusters.

CRIMSON RAMBLER — Very vigorous, entirely hardy and extremely prolific. It blooms in clusters. Of a beautiful crimson color and lasts a long time.

EXCELSA — General form and type of Crimson Rambler but of far better color, hardness and habit. Brilliant scarlet-crimson flowers on plants of great vigor and beauty.

DOROTHY PERKINS — A most beautiful shell-pink rambler. Hardy. Flowers are double, of large size, usually two inches across and borne in loose clusters.

COLUMBIA PINK

MARGARET DICKSON WHITE

MALONEY BROS. NURSERY CO. DANSVILLE, N.Y.

OLD FASHIONED GARDEN PERENNIALS

It is no wonder that these grand old fashioned hardy garden flowers continue to increase in popularity because there is not a time during the whole flowering season in which some are not in blossom, and when the woody shrubs are almost bare of flowers in July and August, these perennials and bulbs may be depended upon to make a grand display, requiring scarcely any attention.

A few beds of Iris, Phlox, Gladiolus, Dahlias and Cannas are an important adjunct to the home and its enjoyment.

The planting of perennials and bulbs has received a wonderful impetus during the past few years—it does seem good as you drive through cities, towns and rural districts to note the revival of these delightful color effects so common to the gardens of long ago.

10 per cent. Discount on All Cash orders mailed before April 1st

LARKSPUR

Price, 25c each, \$2.50 per dozen

BELLADONNA — Vigorous new sort. Large spikes of delicate turquoise blue.

FORMOSUM—The old fashioned favorite. Dark blue flowers.

GLADIOLI

Price, 15c each, \$1.50 per dozen

LILY LEHMAN—An early, almost white variety of large size and beautiful form.

WAR—A new blood red variety. Extra fine.

PANAMA—An improved "America" with flowers of a deeper shade of pink and much larger.

SCHWABEN—Yellow with crimson center. Magnificent. Large flower.

BARON HULOT—Rich dark blue. Extra fine.

LILIES

Price, 35c each, \$3.50 per dozen

AURATUM—The flower heads are large with broad petals gracefully recurved. White with crimson shadings, and wide gold band down center of each petal. Prolific bloomer.

SPECIOSUM RUBRUM—Blooms profusely during August. Petals white, heavily spotted with rich crimson.

SPECIOSUM ALBUM—Pure white with a green bank traversing the center of each petal.

SPECIOSUM MAGNIFICUM—Large flowers of rich, deep red.

PEONIES

Price, 50 cents each, \$5.00 per dozen

FESTIVA MAXIMA—For over fifty years this has been the standard for perfection in peonies. The immense, perfectly double flowers are pure snow-white, with a beautiful flake of carmine in the center.

FRAGRANS—Rose color.

MAD. LEBON — Valuable late red. Flowers ball-shape, very rich, cherry rose.

MAD. DE VERNEVILLE—Medium sized, globular flower, petals crinkly and semi-transparent. Creamy white throughout, flaked purple at center.

GRANDIFLORA — Bright sea-shell pink; overlaid with delicate lilac and salmon pink—an enchanting color.

FRANCIS ORTEGAT—Red.

CANNAS

Price, 25 cents each, \$2.50 per dozen

CHEERFULNESS—A very brilliant orange with a slight red suffusion.

HARMONY—Fine, dark, bronze foliage; and globular trusses of currant-red flowers.

HUNGARIA—A magnificent pink canna widely used for

large, solid beds. The petals are large and waxy, made up into big, round, full trusses.

KING HUMBERT—The finest canna grown. Very broad-leaved foliage, of a rich, reddish bronze color. Flowers orange scarlet, very large. Very free bloomer.

PHLOX

PHLOX

Price, 25 cents each, \$2.50 per dozen

W. C. EGAN—One of the most beautiful of all—a delicate lilac-pink.

LUMINEAUX—Bright rosy crimson, with carmine eye.

MAD. PAUL DUTRIE—Good sized dainty lilac-rose.

THOR—A charming shade of deep salmon-pink suffused and overlaid with a glow of scarlet. The eye of aniline red centers a most attractive aureole nearly pure white.

WHITE LADY—A beautiful pure white variety.

BEGONIA—Flowering

Price, 25 cents each, \$2.50 per dozen

OTTO HACKER — Bright color red. Immense clusters. Shining deep green leaves 8 to 10 inches long.

PRIMA DONNA—A good bedding begonia. Large flowers of bright pink.

WHITE PEARL — Large, waxy white flowers. Rapid grower.

BLEEDING HEART

Price, 50 cents each, \$5.00 per dozen

One of the most delightful of early Spring flowering plants. Bears numerous rosy red, heart-shaped flowers in drooping clusters.

DAHLIAS

Price 30 cents each, \$3.00 per dozen

DELICE—A splendid variety and very generally grown. It is a bright pink, of perfect form and largely grown for cut flowers.

EVENTIDE—A valuable cut-flower type of large size, perfect form, and with long rigid stems. Although essentially white, there is just enough of tender rose flushing the margins of the petals to give the flower a charming air of delicacy and distinction.

MISS MINNIE McCULLOUGH — Here is a dainty sort. Color, rich copper with blood-orange tints. The flowers are liberally supplied, of good size and excellently adapted to artificial light.

MRS. HENRY WIRTH — Of moderate growth. Medium sized flowers. Bright red blossom.

IRIS

Price, 25 cents each, \$2.50 per dozen

BLUE KING—Clear, bright blue.

CELESTE — Falls bright blue, uppers delicate grayish blue, all having a lavender effect.

ISOLENE — Standard pale lavender; falls light purple overlaid brown; beard yellow.

HELGE—Lemon yellow with pearl shadings.

MRS. NEUBRONNER—One of the finest of the newer yellow varieties; deep, golden yellow.

VICTORINE—A very pretty and distinct sort; white, with the falls attractively mottled violet.

IRIS

Customer's Memo from

MALONEY BROS. NURSERY CO., INC.
DANSVILLE, N. Y.

10% Discount Period Extended to April 15, 1926

DUE to the fact that many of our customers have written for an extension of time of the discount, we are going to extend the period to April 15th rather than April 1st, as per our catalogue offer.

We are pleased to do this for we are at all times desirous of co-operating with our patrons.

Therefore, all cash orders mailed on or before April 15th are entitled to 10% discount.

We strive to avoid mistakes, but in the event that any nursery stock sold by us should prove untrue to name under which it is sold, we hereby agree, on proper proof of such untruth to name, to replace the original order or to refund the purchase price. We further agree to deliver stock to destination in good growing condition and up to specifications. If it arrives otherwise we will expect the consignee to notify us within 5 days and we will duplicate the unsatisfactory items with first class stock.

Foxglove

A great favorite. Tall spires 4 to 6 feet high.
Thimble shaped flowers in shades of
white, rose and purple
mixed together.

Price, 25 cents each, \$2.50 per dozen.

Hollyhocks

No perennial garden is complete without these.
Their graceful spikes are a mass of flowers
all summer. We have pink, white,
yellow and scarlet.

Price, 20 cents each, \$1.50 per dozen.

FOXGLOVE
